

CSLC Rincon Leases Equipment List

Onshore Equipment List (PRC 145.1)				
	Original Equipment	Size/ Capacity	In/Out of service	Comments
1	Oil wash tank (Tk 145-16)	750 bbls. (15' 4" X 24')	Out	
2	Wash Tank (Tk 1679)	500 bbls. (15' 4" X 16' 1")	In	Repaired
3	Oil stock tank (Tk 1690)	500 bbls. (15' 4" X 16' 1")	In	
4	Oil stock tank (Tk 2045)	500 bbls. (15' 4" X 16' 1")	In	
Onshore Equipment List (PRC 410.1)				
1	Oil wash tank	750 bbls. (15' 4" X 24')	In	
2	Oil stock tank (Tk 1223)	500 bbls. (15' 4" X 16' 1")	In	
3	Oil stock tank (Tk 1224)	500 bbls. (15' 4" X 16' 1")	In	
4	Oil stock tank (Tk 1225)	500 bbls. (15' 4" X 16' 1")	In	
5	Waste water tank (T410)	1000 bbls. (20' 11" X 16' 5")	In	
6	Group scrubber .	30" X 8' MAWP 125	In	
7	PRC 145 -15 scrubber .	30" X 8' MAWP 125	In	
8	Test scrubber.	30" X 8' MAWP 125	Out	Hole in the bottom of trap.
9	Water injection pump	(Gasol Triplex) 50 HP/1185 PRM	In	Rebuilt on 1-20-2018.
10	Water injection charge pump .	Centrifical Pump 50 HP/1185 PRM 275 MAWP	In	Needs work.
11	Vapor recovery compressor .	CBA-700 400 RPM @900 CFM, HP 15 @1790 RPM	In	
12	Vapor recover inlet scrubber .	MBD-650 16" X 51"	In	
13	Crude oil shipping pump.	Gasol 4"x6" (B&S) 25 hp	In	
14	LACT unit charge pump.	Centrifical pump. 7.5 HP cent. pump 2x2	In	
15	LACT surge tank.	12" X 12'	Out	
16	LACT meter assembly	AO Smith Positive Displacement type meter 3".	In	
17	Service Air Compressor Receiver.	Ingersoll-Rand. HP375WIR 375 CFM	In	
Rincon Island Equipment List (PRC 1466.1)				
1	Tk1037 wash tank	1500 bbls. (21'6" X 24')	In	
2	Tk1038 stock tank	1000 bbls. (21'6" X 16')	In	
3	MBD 400 Common separator	34" X 18'	In	Hemispherical. Currently being used as flare scrubber for well pressure bleeds.
4	Fresh water line two inch	2"	In	
5	Oil shipping line	6"	In	Hydrotest good to 424 psi (MAOP) until 10/2018.
6	Gas shipping line	4"	Out	Rusted and blistered external condition and has two expansion loops.
7	VRU Compressor	Screw type.	Out	Rental equipment replacement in-use. Vapor Recovery Compressor 230/460 Volt, 3-Phase, 7.5 HP Motor
8	(1) Wheatley Water Injection Pump	125 HP 1.78 BPM	In	
9	(1) Active Injection well		In	Injection well 1466-43 passed MIT test January 12, 2018. MAOP of 800 psi.
10	(5) Inactive Injection wells		In	Five additional injection wells approved by DOGGR for injection with MAOP of 800 psi.
11	Fire water pump	750 GPM @ 150HP	In	
12	Back up fire water pump	750 GPM @ 150HP	Out	Pump was removed.
13	Instrument air compressor	Quincey CBA-700 400rpm@900cfm, hp15 @1790rpm (150 psi)	In	
14	Winch crane to launch boat	3 ton lift	In	
15	Oil spill response boat #1	Rienell boom deployment boat (ski type)	In	
16	Oil spill boat #2	Boston Whaler boom deployment boat (17')	Out	Boat #2 is in the repair shop.
17	Emergency generator	Caterpillar 3406 (300 KW)	Out	Rental equipment replacement in-use. 256 KW Magnum Power (385-388 amps)
18	(1) Roper shipping pump	468 GPM @ 125 psi	Out	

19	(2) Wilden transfer pumps	3" discharge 300 gal/hr @ 125 psi	Out	
20	Flare	120.0 MMBTU/hr	Out	Rental equipment replacement in-use. Flare Trailer: 4" Trailer mounted flare, 3" Inlet, length 25', width 8', and height 25', with-out riggers out, total 18'. Flare comes with 25 gal propane tank, Mactronic ignition, Mactronic continuous pilot system, 12 volt DC solar powered electronic pilot. Hydraulic lift for mast, 150' 2" figure 200 pipe rated for 2000psi.
21	Flare Scrubber	30" x 10'	Out	Semi-Hemispherical. Common seperator (No. 3 above) is being used for flare scrubber.
	Flare Line	4" & 6"	Out	Rusted and blistered external condition with visible holes breaching into the interior.
22	Fiberglass source water tank	300 bbls.	Out	
23	Sanitary Facility		Out	
24	L.A.C.T. meter assembly		Out	
25	L.A.C.T. Unit charge pump.		Out	
26	L.A.C.T. meter skid.		Out	
27	L.A.C.T. surge tank.	12" dia X 1.2'-0" s/s (Horizontal)	Out	
28	L.A.C.T. room sump.		Out	
29	Crude Oil shipping pump.		Out	
30	Wellbay sump pump (North)		Out	
31	Wellbay sump pump (South)		Out
