**Can you confirm the minimum number of example projects that are required to be included in the SOQ (referencing section I(C)(2)(e) of the SOQ submittal instructions)?**

There is an ambiguity in the SOQ submittal instructions regarding the minimum number of projects that must be included in the SOQ. Namely, it is unclear whether firms must submit 5 or 10 example projects. Firms must provide and detail a minimum of five (5) example projects in the RFQ to be responsive to this particular requirement. Firms may provide a larger number of example projects if they feel it is helpful to do so. The SOQ submittal instructions will be corrected in the future to remove this ambiguity.

**Can you provide the form that the authorized representative is required to sign, pursuant to section I(C)(2)(g) of the SOQ submittal instructions?**

There is an ambiguity in the SOQ submittal instructions regarding attestation as to the truthfulness of the submitted SOQ. The requirement in section I(C)(2)(g) of the SOQ submittal instruction will be satisfied if the firm signs the transmittal letter page attesting to the same. There is no need to sign an additional form attached to the SOQ. The SOQ submittal instructions will be corrected in the future to remove this ambiguity.

**Can you provide a link to download the California Civil Rights Certification form discussed in section I(C)(5)?**

The certification form has been added to the attachment list on the SLC's contracting website at <http://www.slc.ca.gov/About/Contracting.html>.
