**NOTICE OF INTENT TO CONSIDER AN ADDENDUM
TO AN ENVIRONMENTAL IMPACT REPORT**

An Addendum to a previously certified Environmental Impact Report (EIR) was prepared by the California State Lands Commission (CSLC), as lead agency under the California Environmental Quality Act (CEQA) (Pub. Resources Code, § 21000 et seq.), in response to an application submitted by AT&T to amend General Lease – Right-of-Way Use (PRC 8154.1; PRC 8278.1) to remove two fiber optic cable segments offshore of San Luis Obispo County near Morro Bay. The Addendum is in compliance with the requirements of CEQA and the State CEQA Guidelines (Cal. Code Regs., tit. 14, § 15000 et seq.).

Project Title: AT&T China–U.S. Cable Network, Segments E1 and S7 Project

Project Location: Montaña de Oro State Park near Morro Bay extending offshore, San Luis Obispo County

Project Description: AT&T proposes to completely remove Cable Segments E1 and S7 of the China–U.S. Cable Network (Lease Nos. PRC 8154.1 and PRC 8278.1) from Montaña de Oro State Park to a water depth of 1,000 fathoms (6,000 feet) or approximately 55 miles offshore.

The EIR certified by the Commission on April 20, 2000, and the Addendum can be downloaded, in PDF format, at www.slc.ca.gov (click on the Information and CEQA Updates links). The Addendum and the proposed project will be considered at the November 29, 2017, Commission meeting of the CSLC, unless otherwise stated on the CSLC's website (Cal. Code Regs., tit. 14, § 15164, subd. (d)). The specific time and location will be posted on the CSLC's website at www.slc.ca.gov when specific meeting information becomes known.

Should you have any questions or need additional information from a State or CEQA perspective, please contact Eric Gillies at (916) 574-1897, or via e-mail at eric.gillies@slc.ca.gov.

Jennifer Lucchesi
Executive Officer
