OF A DRAFT SUPPLEMENTAL ENVIRONMENTAL IMPACT REPORT**

Pursuant to California Code of Regulations, title 14, section 15087, this is to advise that the California State Lands Commission (Commission), as a Responsible Agency under the California Environmental Quality Act (CEQA), has completed a Draft Supplemental Environmental Impact Report (EIR) for the proposed Project described below.

**Project Title:** **Seawater Desalination Project at Huntington Beach:  
Outfall/Intake Modifications and General Lease — Industrial Use  
(PRC 1980.1) Amendment (Lease Modification Project)**

**Project Location:** Tide and submerged lands offshore of Huntington State Beach, city of Huntington Beach, Orange County

**Proponent:** Poseidon Resources (Surfside) LLC (Poseidon)

**Project Description:** Poseidon proposes to modify the existing Huntington Beach Generating Station Once Through Cooling (OTC) seawater intake and discharge (outfall) pipelines within the Lease area. The Lease Modification Project includes two “technology enhancements” associated with Poseidon’s proposed seawater desalination facility at Huntington Beach: 1) install 1-millimeter wedgewire screens on the offshore end of the seawater intake line, and 2) install a multiport diffuser on the offshore end of the outfall.
