

After a full discussion with the representatives of the Eleventh Naval District, said representatives were informed that the Commission has not heretofore and does not now interpose an objection to the continued temporary use by the Navy of the subject area of filled tide and submerged lands in San Diego Bay for an amphibious landing craft training program.

The Acting Executive Officer was instructed to obtain an expression from the State Park Commission as to the views of that body relative to the proposed operation of the Skyport as it might affect present or contemplated operation of the adjoining park property. Satisfactory expression relative to the problem was established by the Commission as a condition precedent to the granting of Lease No. P.R.C. 243 at the meeting held on August 22, 1946.

Upon motion duly made and unanimously carried, consideration of the application filed by the Eleventh Naval District for a ninety-day revokable permit covering occupancy of the filled tide and submerged lands, and the issuance of the proposed lease No. P.R.C. 243 to the Silver Strand Skyport, were deferred for further consideration.

5. (Application for Pipeline Right of Way Across Roaring River, Solano County - Pacific Public Service Company - No. P.R.C. 247) The Commission was informed that application had been made by the Pacific Public Service Company for a revised right of way description under Lease No. P.R.C. 247 granted heretofore, inasmuch as the engineers of the company had found it necessary to relocate the position of the crossing of Roaring River.

Upon motion duly made and unanimously carried, a resolution was adopted authorizing the Acting Executive Officer to execute and issue a revised right of way easement to the Pacific Public Service Company for a term of fifteen years for an area of tide and submerged lands 182 feet long and 50 feet wide across Roaring River, Solano County. The annual rental for said revised easement to be \$43.64 in accordance with the uniform rental policy of the Commission and the issuance of the easement to be subject to the filing of a \$1,000.00 corporate surety bond by the Pacific Public Service Company to guarantee performance and removal of any structures at the termination of the easement.

6. (Application for permit to conduct Submarine Seismograph Exploration, Ventura and Santa Barbara Counties - Honolulu Oil Corporation - No. P.R.C. 262.) Upon motion duly made and unanimously carried, a resolution was adopted confirming the issuance of a permit to Honolulu Oil Corporation for the conduct of submarine geophysical operations on tide and submerged lands in Ventura and Santa Barbara Counties for the period September 15, 1946 to November 15, 1946, for a consideration of the statutory \$5.00 filing fee.
