(Addition to Regulation D, Relating to Extraction of Minerals from Streams or Lakes, Pursuant to Chapters 4 and 4.1, Part II, Division 6 of the Public Resources Code) It was recommended to the Commission that in order to avoid waste and to preserve State property that a rule should be added to Regulation "D" to provide for uniform and proper spacing of brine wells installed on Owens Lake as follows:

"Lessee shall not extract nor install and operate any facilities for extraction at places closer than one-quarter of a mile to any other extraction facilities, nor within one-quarter of a mile of any leased premises heretofore granted by the State."

Upon motion duly made and unanimously carried, a resolution was adopted authorizing the Acting Executive Officer to notify all lessees under mineral extraction leases on Owens Lake of the intention of the Commission to consider the adoption of this rule at the next regular meeting of the Commission, and the desire of the Commission that all such lessees present at that time either in writing or in person any objections and suggestions relative to the adoption of this rule.

17. (Administration - Personnel Assignment) The Commission was informed of the existence of a vacancy in the supervisory level of personnel in the State Lands Division and the divergence between the specifications as established by the Personnel Board for the class title and the actual duties to be discharged in this position.
