SEC. 2. This act is an urgency measure necessity for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution, and shall go into immediate effect. The facts constituting such necessity are:

It is of the greatest importance that the development and production of til and gas from the dide and submerged lands along the coast of California continue uninterruptedly, and with the same degree of efficiency as heretofore, mider the leases made by the State of Callfornia to its lesses, during such period as shall elapse until final adjudication of the issues now pending in the United States Supreme Court in the case of United States v. California under the proceedings before the Special Master appointed by said Court, or until permanent legislation is enacted by the Congress determining the rights of this State in and to said lands. The reason for this is that such uninterrupted and efficient development and production is vital to the needs of public health, inc stry, transportation, and many domestic uses of hydrocarbon products in this State. Under the provisions of the Stipulation entered into by the Attorney General of the United States and the Attorney General of California on August 21, 1950 in the action heretofore referred to, it was agreed that all restals, royalties and other payments received by the State of California from these said leases in the tide and submerged lands along its coast, beginning on and subsequent to October 1, 1950, would be segregated and held in a special fund and paid quarterly to the order of the Treasurer of the United States and delivered to the Secretary of the Interior, the United States agreeing to segregate and hold all moneys so paid in a special fund until such time as the proprietary rights in any particular area of said lands shall be finally judicially determined, or shall be agreed to by the parties thereto; such agreement not to preclude any other proper disposition by reason of an order of the Supreme Court of the United States or of an Act of Congress.

The legislative provision contained in this Act is necessary for the immediate carrying out of the provisions of this Stipulation and the aforesaid minterrupted and efficient production and development of hydro-carbon substances from the aforesaid lands.

UPON MOTION DULY MADE AND UNANTHOUSLY CARRIED, A RESOLUTION WAS ADOPTED APPROVING THE PROPOSED LEGISLATION AND AUTHORIZING THE EXECUTIVE OFFICER TO AMAIN OF FOR ITS INTRODUCTION IN THE 1951 REQUIAR SESSION OF THE LEGISLATURE.
