

17. (DEFERMENT OF OPERATING REQUIREMENTS, MINERAL EXTRACTION LEASE P.R.C. 709, CONSTRUCTION AGGREGATES CORPORATION.) Mineral Extraction Lease P.R.C. 709 was issued to Construction Aggregates Corporation on February 14, 1952, subject to competitive public bidding, for an initial term of 20 years, to cover the extraction of sand from Point Knox, Alcatraz and Presidio Shoals in San Francisco Bay. The Construction Aggregates Corporation was the sole bidder in response to the lease invitation. Lease P.R.C. 709 requires an advance annual rental payment of \$900 and a royalty of 3 cents per cubic yard for all sand extracted, and specified a minimum of extraction operations shall be performed during each year of the term of the lease.

Notice has been received from the Construction Aggregates Corporation that there have been no extraction operations under the lease during the first calendar year. Therefore it is requested that the requirement for extraction operations be waived for the lease year ending February 13, 1953.

In consideration of the lack of competition in bidding at the time of the lease offer, the substantial prepaid annual rental and the fact that no State lands have been occupied or utilized,

UPON MOTION DULY MADE AND UNANIMOUSLY CARRIED, IT WAS RESOLVED AS FOLLOWS:

The Executive Officer is authorized to grant a deferment of the operating requirements specified in Section 10 of Mineral Extraction Lease P.R.C. 709 for the lease year ending February 13, 1953, all other terms, conditions and performance requirements under the subject lease to remain unchanged.
