Agreements for Easement 274.5 and 275.5, issued by the Division of State Lands March 1, 1934, and Agreements for Easement 400.5 and 401.5, authorized by the State Lands Commission November 7, 1938, have not been recorded heretofore in the Official Records of Orange County. In conjunction with the assignment of the subject agreements, as authorized by the Commission February 9, 1953 (Minute Item 24, Pages 1738-39), it appears desirable that these documents be recorded in the official County Records. However, none of the signatures to the original agreements were acknowledged at the time of execution and, therefore, the office of the County Recorder of Orange has held that the documents may not be recorded at this time without further certification. Therefore, the Wilshire Oil Company, Inc., as original lessee, has requested the execution of a statement upon behalf of the State Lands Commission confirming the existence of the subject agreements. Such statements of confirmation would be filed for record in the County of Orange with a copy of the original agreement annexed. The form for confirmation of the agreements has been reviewed and approved by the office of the Attorney General.
