OTHER PERTINENT INFORMATION:

1. By State Lands Commission action of July 24, 1975, Calendar Item 17, page 85, the Commission approved the Renewal and Amendment of Lease PRC 2052 with the provision of Public Liability Insurance in amounts of \$300,000/\$600,000 per occurrence for bodily injury and \$100,000 for property damage. The lessee has since requested these limits be lowered as it has not been possible for them to obtain insurance in these amounts without undue expense. Lessee's insurance broker, James L. Maxwell, of Rio Vista, states that companies he represents will not write limits in excess of \$300,000.

The State Administrative Manual dated January, 1975, Section 1212.3, of Article 8, states in part:

"8. Contracts of a Hazardous Nature

Any contract of a hazardous nature, which may involve risk of injury or damage to persons or property, shall protect the State against liability by requiring the contractor to carry public liability insurance.

Contracts of a hazardous nature include, but are not limited to, those made for the following purposes: automobile or motorcycle races, rodeos, thrill shows or fireworks, elevator maintenance, and those let specifically for excavation or demolition work. The contract shall contain the following provisions:

"Contractor shall furnish to the State a certificate of insurance stating that there is liability insurance presently in effect for contractor with limits of bodily injury coverage of not less than \$100,000 per person and \$300,000 per occurrence and property damage limits of not less than \$50,000 per occurrence."

CALENDAR ITEM NO. 2. (CONTD)

"Major operations or ultra-hazardous operations are encouraged to carry insurance with higher limits."

Division staff is not aware of any factors that would cause this boating facility to be classified as a major operation or ultra-hazardous.

2. By State Lands Commission action, referenced in Paragraph 1, above, the Commission approved \$345 per annum rent with the State reserving the right to fix a different rental on December 30, 1975. The nominal rent of \$250 per acre used as a basis of consideration in this area is not scheduled to expire until April 27, 1976.
3. An Environmental Impact Report is not required. This transaction is within the purview of 2 Cal. Adm. Code 2907(a) which exempts an existing structure or facility that is in an acceptable state of repair and there is no evidence of record to show injury to adjacent property, shoreline erosion, or other types of environmental degradation.
4. This project is situated on State land identified as possessing significant environmental values, pursuant to Public Resources Code 6570.1, and is classified in a significant use category, Class B: Limited Use. Staff review indicates that there will be no significant effect upon the identified environmental values. This is an existing facility for which no adverse comments have been received.
5. In an action to quiet title to land between E. F. Perry et al, Appellants v. the State of California et al, Respondants, the (Third) District Court of Appeals of the State of California on February 21, 1956, in Civil Case No. 8651 "set aside the findings, conclusions and judgment in order to receive evidence offered."

On November 1, 1957, the parties signed a stipulation for Judgment. Following this, the Sacramento Superior Court entered judgment on December 9, 1957. The recommendation of staff is not inconsistent with these judgments.
