General Plan

SA 5630

The U. S. Forest Service has applied to the State Lands Commission to purchase a portion of a parcel of lieu land located in the southwest quarter of the northwest quarter of Section 4, Township 25 North, Range 8 West, Mount Diablo Meridian, Tehama County. This general plan is submitted in conformance with Section 6373 of the Public Resources Code.

The proposed purchase is a strip approximately 1,306.8 feet in length and 60 feet in width with a total acreage of 1.91 acres. The subject property is an existing road (25N01) which was built approximately twenty (20) years ago. The road is a portion of the Mendocino National Forest road system and was constructed without obtaining permission from the State Lands Commission. The road is presently being used by both the public and the Forest Service. This road will not require any construction or reconstruction as the existing road meets the necessary standards required in this locale. There will be normal road maintenance as necessary.

The surrounding property is primarily private land with a few parcels of National Forest. The vegetation consists of timber with some scattered brush. There are no developments on the surrounding properties. No timber will be removed from the land as a result of this sale. City or County building permits will not be required for this transaction.
