APPROVAL OF CHEVRON U.S.A. INC. GAS SALES AGREEMENTS
WITH PACIFIC GAS AND ELECTRIC COMPANY

Chevron U.S.A. Inc. has negotiated price increases under their gas sales contracts with Pacific Gas and Electric Company (PG&E). Some of the contracts cover gas produced from State leases and gas allocated to State lands under compensatory agreements.

Copies of letters of the agreement dated June 30, 1980, between Chevron and PG&E, modifying the price provisions of sales contracts covering those State leases and agreements in which Chevron holds an interest, have been filed with the Commission. Each letter and the contract it modifies covers only Chevron's share of gas produced from or allocated to the respective leases and agreements. The State leases subject to these modified gas sales contracts include Agreement for Easement No.415 in the Rio Vista, Sherman Island (Decker Island Unit) and Isleton Gas Fields; Gas Leases PRC 714 and PRC 729 in the River Island Gas Field; and State Oil and Gas Leases PRC 3743.1 and PRC 3896.1 in the Ryer Island Gas Field. Each of these agreements provides that the Commission shall approve any sales contract or other arrangement by which the lessee disposes of the gas produced under the lease. The Rio Vista and Ryer Island leases, but not the River Island leases, permit the Commission to determine the reasonable market value or current market price of the gas for purposes of determining the State's royalty.

The price modification covers a two-year period commencing July 1, 1980, and ending at such time as Federal ceiling prices cease to apply. The modifications provide for increases in the contract prices effective July 1, 1980, January 1, 1981, and July 1, 1981. Effective January 1, 1982, the price shall then be revised each month to the price equal to the highest applicable price per one million BTU permitted under (1) Section 102 of the Federal Natural Gas Policy Act of 1978 (NGPA) or any successor legislation, or (2) any legislation enacted by the State of California, whichever establishes a lower price. The new pricing shall be as follows:
