INFORMATIVE

In accordance with the Commission's delegation of authority to the Executive Officer for the issuance of dredging permits of 10,000 cubic yards or less. Minute Item No. 32, February 24, 1977, permission was granted on June 18, 1979, to excavate 3,000 cubic yards of material from State-owned granted lands to the party named below. Because of regulatory delays, the applicant requested, and the Executive Officer issued, an extension to the permit for:

APPLICANT: Oil Terminal Company
c/o Winzler and Kelly Engineers
P. O. Box 1345
Eureka, California 95501

The modification extends the term of the permit from July 1, 1981, to June 30, 1983, specifies that all other terms, conditions and requirements of the original permit remain in full force and effect, and requires compliance with the permits, recommendations and limitations of all applicable Federal, State, and local agencies. The original permit allowed excavation of 3,000 cubic yards of material from a breakwater located in granted tide and submerged lands in Crescent City Harbor, Del Norte County to replace existing 6" and 8" pipelines. Excavated material will be backfilled into the pipeline trench with any excess to be used as fill at the Harbor District's Boat Launching Facility. Although no removal of excavated material from publicly owned property is contemplated, the permit provides for a royalty of \$0.25 per cubic yard in the event such removal occurs.

AB 884 DEADLINE:
5-6-82.

EXHIBITS: A. Land Description. B. Location Map.

In compliance with said delegation of authority, it has been determined that the following conditions have been met:

1. The proposed project is categorically exempt from the requirements of CEQA, pursuant to the provisions of Section 15102 of the CEQA Guidelines as a replacement of existing facilities.

CALENDAR ITEM NO. C 18 (CONTD)

2. Issuance of the permit and the resultant project will have no significant adverse effect on the environment or the environmental characteristics identified pursuant to Section 6370.1 et seq., of the P.R.C.
3. The dredging amount will not exceed 10,000 cubic yards.
4. A charge per cubic yard will be assessed for spoil material that is deposited on private property or otherwise lost to future State benefit.
5. Approval of the project will be contingent upon approval by all pertinent State, Federal and local agencies.
