NEGATIVE DECLARATION

## Salvage of the Queen Christina

W 21068

This Negative Declaration is prepared pursuant to Section 15083, California Administrative Code, Title 14, Division 6 and is based upon an Initial Study pursuant to Sections 15080 and 15066 thereof.

Description

It is proposed to selectively salvage artifacts from a freighter that sank in 1907. The operation will take place near Crescent City, specifically off Point St. George in shallow water. It is expected that only a few days will be required for the project, although this is dependent on the weather. All items found will be catalogued and be the property of the State until their disposition is determined. The salvor intends to place all materials found and kept into a private museum for the maritime history of the northern California coast.

Determination

An Initial Study has been prepared and it is determined that the proposed project will not have a significant effect upon the environment.

(1) The proposed project will have no cumulative impacts, or adverse effects on humans.

(2) There will be minimal impacts upon fish and other marine organisms of the project environment.

(3) Salvage of the Queen Christina, a British freighter of a historical period is believed to be noncontroversial in terms of the historical elements of CEQA and the California History Plan. This determination rests upon the type of vessel, no cargo, and possible prior salvage. See attachment to Initial Study checklist.

(4) Uses of public services, energy, and other resources are not applicable or are insignificant.

This Negative Declaration was prepared by the staff of the State Lands Commission. Additional copies may be obtained from Ted. T. Fukushima, State Lands Commission, 1907 13th Street, Sacramento, CA 95814. Telephone No. (916) 322-7813.
