OTHER PERTINENT INFORMATION:

1. Pursuant to the Commission's delegation of authority and the State CEQA Guidelines (14 Cal. Code Regs. 15025), the staff has prepared a Proposed Negative Declaration identified as EIR ND 529, State Clearinghouse No. 90030751. Such Proposed Negative Declaration was prepared and circulated for public review pursuant to the provisions of CEQA.

Based upon the Initial Study, the Proposed Negative Declaration, and the comments received in response thereto, there is no substantial evidence that the project will have a significant effect on the environment. (14 Cal. Code Regs. 15074(b))

2. Southern Pacific is exercising its right to secure a right-of-way for the subject bridge under provisions of California Public Utilities Code Sec. 7553, which requires a plat of the proposed right-of-way be transmitted to State Lands for verification. Upon verification, State Lands will endorse the plat and issue a permit to Southern Pacific.

Southern Pacific is in the process of preparing a plat pursuant to California Public Utilities Code Section 7553 and will transmit it to the staff within the next week.

3. The annual rental value of the site is estimated to be \$90,000 per annum.

U. Mandatory Findings of Significance

- | | | | |
|--|--------------------------|--------------------------|-------------------------------------|
| 1. Does the project have the potential to degrade the quality of the environment, reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal or eliminate important examples of the major periods of California history or prehistory? | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| 2. Does the project have the potential to achieve short-term, to the disadvantage of long-term, environmental goals? | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| 3. Does the project have impacts which are individually limited, but cumulatively considerable? | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| 4. Does the project have environmental effects which will cause substantial adverse effects on human beings, either directly or indirectly? | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

III. DISCUSSION OF ENVIRONMENTAL EVALUATION (See Comments Attached)

IV. PRELIMINARY DETERMINATION

On the basis of this initial evaluation:

- ☒ I find the proposed project COULD NOT have a significant effect on the environment, and a NEGATIVE DECLARATION will be prepared.
- ☐ I find that although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because the mitigation measures described on an attached sheet have been added to the project. A NEGATIVE DECLARATION will be prepared.
- ☐ I find the proposed project MAY have a significant effect on the environment, and an ENVIRONMENTAL IMPACT REPORT is required.

ATTACHMENT TO ENVIRONMENTAL IMPACT ASSESSMENT CHECKLIST - PART II
SOUTHERN PACIFIC TRANSPORTATION COMPANY

C1.

During the construction phase, water flow around the existing bridge will be temporarily disturbed as piles are inserted, increasing turbidity.

C5.

During construction activities, temporary bottom sediment disturbance may be caused by the driving of replacement piles. No dredging or trenching is anticipated.

E1.

Timbers and timber piles are pretreated with creosote. The Regional Water Quality Control Board and the Department of Fish & Game have been consulted and believe that the use materials that are properly treated with creosote are acceptable for this project.

E4.

The possibility of increased turbidity due to construction activities may temporarily effect existing fish or wildlife habitat.

F1.

There may be a temporary increase in existing noise levels from pile drivers during construction. Due to the location of the railroad bridge in close proximity to the State Highway, this impact should not be significant.

M1.

There may be a minor increase in vehicular movement during the course of reconstruction from trucks bringing workers to the site. Loading of the barge will be at the staging area in Vallejo.

M5.

Temporary alterations to existing vessel traffic/recreational boaters may be caused by reconstruction activities in the project area. However, the U. S. Coast Guard is fully aware of the proposed reconstruction activity.

S1.

Due to the additional vehicular movement and reconstruction activities, recreational fishing may be temporarily displaced from the area.

**SOUTHERN PACIFIC TRANSPORTATION COMPANY
PROJECT DESCRIPTION
W 24301**

The proposed project includes both authorization of and current repair to the existing Southern Pacific Transportation Company Bridge which carries Southern Pacific's main rail line over the entrance to the Suisun Bay between Suisun Point and Army Point (Benicia and Martinez), Contra Costa and Solano Counties. The proposed project will result in the increased protection to both the bridge and to passing vessels.

Reconstruction will include modification and repair to the fender pier protection system. The proposal includes repairs to piers 11 through 18 of the railroad's bridge, which entails replacing decayed, damaged or missing fenders, pilings, dolphins, bracings, vertical and diagonal sheathing, walers, hardware, cables, and cinch anchors; and, replacing or restoring to their original position, dolphins at piers 16, 17 and 18. In its current condition, except for the main channel, the fenders provide little protection for the bridge and vessels.

Anticipated duration of the project is 22 weeks. Work will begin as soon as possible to ensure maximum protection to the bridge structure and to the safety of marine traffic.

Access to the project site will be via barge and construction material will be stored on the barge and at a yard site in Vallejo. Staging will be at Kiewit Pacific Co. yard at Vallejo.
