ACCEPT THE TERMINATION OF
COMPENSATORY ROYALTY AGREEMENT
PRC 2966 (294 ACRES OF INLAND TIDE AND
SUBMERGED LANDS) NEAR WALNUT GROVE GAS FIELD,
SACRAMENTO AND SAN JOAQUIN COUNTIES

LESSEE:

Union Oil Company of California
1800 30th Street, Suite 200
Bakersfield, CA 93301-1921

BACKGROUND:

Compensatory Royalty Agreement PRC 2966 was issued to Union Oil Company of California (Unocal) on December 5, 1962 and contains 294 acres of inland tide and submerged lands in the vicinity of the Walnut Grove Gas Field in Sacramento and San Joaquin Counties, California.

Public Resources Code Section 6815 provides that the Commission may negotiate and enter into agreements for compensation for drainage of State lands by oil and gas wells drilled upon private land. Compensatory Royalty Agreement PRC 2966, issued to compensate the State for drainage from wells drilled in the Walnut Grove Gas Field, provides in Paragraph 6 that the Party may be relieved of performance under this agreement should it surrender or terminate all leases subject hereto. In a letter dated March 20, 1995, Unocal has requested the State's agreement to a termination. All production has ceased from wells draining State lands.

On March 23, 1995, the Commission's Long Beach office staff received the document "Termination of Compensatory Royalty Agreement PRC 2966". This document was dated March 20, 1995, and relinquishes to the State all of the lessee's rights and interest in the lands described in Exhibit "B" of State Compensatory Royalty Agreement PRC 2966 dated June 8, 1962.

A review of the Commission's files reveals that no default exists on the Agreement, that the "lessee" has complied with all applicable laws and provisions.
