3. The County is proposing a two-phase dredging project to restore navigation. Phase I involves the dredging of a maximum 10,500 cubic yards of sediment with temporary deposition at an existing settling basin. Phase II will involve dredging a remaining 75,500 cubic yards of sediment with deposition of both Phase I and II sediment at an EPA-approved offshore disposal site (LA-3). The Commission is being asked to consider authorization of Phase I dredging and temporary sediment deposition only. Subsequent Commission authorization will be required for Phase II dredging and deposition offshore.
