**TITLE SETTLEMENT AGREEMENT
ALONG THE COLORADO RIVER**

APPLICANTS: Dr. Glen Bonecutter
Dr. Charles Morrell
Ms. Judi Booth

PROPOSED AUTHORIZATION:

In December, 1994 the Commission approved a title settlement agreement between the State of California and the applicants. The Agreement established a fixed boundary line between the interests of each of the parties and the State and contained mutual quitclaims of interests on either side of the agreed line. The original agreement was never executed by the parties. This Item seeks to reauthorize the agreement and the concomitant exchange of deeds.

BACKGROUND:

The Colorado River, near the City of Needles, has historically meandered over a large flood plain. In 1883 the United States Bureau of Land Management surveyed the Official Township Plat for Township 8 North, Range 23 East, S. B. M., and located the River within what is now the Applicants' property.

On June 25, 1951, the United States Bureau of Reclamation (USBR) opened a dredged channel westerly of the Pelican Bend area and adjacent to the Applicants' property. This dredged channel is now the current channel of the Colorado River (USBR Channel) and the location of the Settlement Agreement. In the Settlement Agreement the Applicants relinquished all of their right, title and interest in the USBR Channel and the State quitclaimed all of its right, title and interest to lands easterly of the right bank of the USBR Channel. Additionally the Applicants conveyed an access easement along the right bank to the State.

CURRENT SITUATION:

Public Resources Section 6307 provides that the Commission may lift the public trust from lands "improved, filled, and reclaimed, and have thereby been excluded from the public channels and are no longer available or useful or susceptible of being used for navigation and fishing, and are no longer in fact tidelands or submerged lands." Additionally, the exchanged lands must be of equal or greater value.

CALENDAR ITEM NO. C47 CONT'D)

The Commission staff has inspected and surveyed the lands described in the Settlement Agreement and has appraised them. Their conclusion is that the lands in their current condition meet the criteria for the lifting of the public trust and that the exchange lands are of equal or greater value.

OTHER PERTINENT INFORMATION:

1. Pursuant to the Commission's delegation of authority and the State CEQA Guidelines (Title 14, California Code of Regulations, section 15061), the staff has determined that this activity is exempt from the requirements of the CEQA as a statutorily exempt project. The project is exempt because it involves settlements of title and boundary problems.

Authority: Public Resources Code section 21080.11.

2. This activity involves lands identified as possessing significant environmental values pursuant to Public Resources Code sections 6370, et seq. but such activity will not affect those significant lands.

EXHIBIT:

- B: Description of Agreed Common Boundary Line

6. APPROVE AND AUTHORIZE THE EXECUTION, ACKNOWLEDGEMENT AND RECORDATION ON BEHALF OF THE COMMISSION OF A BOUNDARY LINE/SETTLEMENT AGREEMENT WITH GLEN BONECUTTER, ET AL.
