**CONSIDER MODIFICATION OF THE BROOKSIDE SETTLEMENT AND EXCHANGE AGREEMENT AND AMENDMENT OF PUBLIC AGENCY PERMIT CONCERNING ACCESS POINTS ON FOURTEEN MILE SLOUGH, BROOKSIDE ESTATES, CITY OF STOCKTON, SAN JOAQUIN COUNTY**

**PARTIES:**

- Grupe Communities Inc.
- Brookside Master Association
- Reclamation District 2074
- City of Stockton
- State Lands Commission

**BACKGROUND**

This calendar item recommends modifying certain provisions of a Litigation and Title Settlement Agreement (Agreement) approved by the Commission at its meeting of March 27, 1990, and entered into between the State of California (acting by and through the State Lands Commission), the city of Stockton, Grupe Communities Inc., Reclamation District 2074, and other involved property owners.

The Commission first amended the initial Agreement by approval of Minute Item 56 at its meeting of May 5, 1992. This first amendment extended the period of time for pathway construction along the Calaveras and San Joaquin Rivers to no later than March 31, 1993.

The Commission subsequently amended the Agreement by approval of Minute Item 46 at its meeting of March 1, 1995. That amendment extended portions of the easements and deleted unnecessary sections.

The land involved is located in the western portion of the city of Stockton. The specific

area was historically known as the Sargent Barnhart Tract, and more recently, as "Brookside." The area is shown on Exhibit A and is bounded on the north by Fourteen Mile Slough (formerly Twelve Mile Slough), on the northwest by the Ten Mile Slough levee (formerly Connection Slough), on the southwest by the San Joaquin River, on the south by the Calaveras River and on the east by the Smith Levee and earlier development.

**PROPOSED MODIFICATIONS**

The Agreement, as amended, between the Commission, Grupe Communities Inc., and the city of Stockton provides for public access along Fourteen Mile Slough. This access is in the form of several easements based upon proposed development plans for the upland properties at the time of the second amendment. The changes to these development plans as actually executed have required adjustments to some of these easements and have made some portions of the easements superfluous. These changes were contemplated in the previous Agreement and amendments are in conformance therewith.

Proposed changes to these easements are shown in Exhibit A and are as follows:

1. Terminate the portion of the Public Recreation Easement J-4 that extends westerly of Lot 2626 of Brookside Estates Unit 25, as it is no longer necessary. (Exhibit "A" Sheet 2).
2. Terminate the Public Access Easement J-3 in the northwest corner of Brookside as it is now isolated and no longer necessary. (Exhibit "A" Sheet 2).
3. Modify description of 8' wide Pedestrian Easement J-2 to accept the portions of the easement which extends the existing easement to the access point at Lot 2626 of Brookside Estates Unit 25 and connects that levee access point through Brookside Estates Unit 25 with the public street, Riverbrook Drive. (Exhibit "A" Sheet 1).
4. The above easements were leased to the city of Stockton via Public Agency Permit (PRC 7393.9) as part of the original Settlement Agreement. Accordingly, the Public Agency Permit will need to be amended to incorporate these new descriptions.
5. Modify the description of Pedestrian and Bike Path Easement N-2 to make

it coterminous with Public Recreation Easement J-4 at Lot 2626 of Brookside Estates Unit 25. (Exhibit "A" Sheet 1).

6. The Agreement will have to be modified subsequently to incorporate or amend of the provisions regarding gates, signage, and hours of access along the various easements with the ultimate goal of fostering public access to Fourteen Mile Slough.
  
7. Pursuant to the Commission's delegation of authority and the State CEQA Guidelines (Title 14, California Code of Regulations, section 15061), the staff has determined that this activity is exempt from the requirements of the CEQA as a statutorily exempt project. The project is exempt because it involves settlements of title and boundary problems.

Authority: Public Resource Code section 21080.11.
