CALENDAR ITEM NO. C44 (CONT'D)

2. This project is part of a larger dredging project that also includes lands legislatively granted to the city of Newport Beach pursuant to Chapter 74, Statutes of 1978, as amended. Minerals are not reserved to the State in these lands and therefore no lease from the Commission is required.
3. The county of Orange, in cooperation with the city of Newport Beach, is working with the Resources Agencies to renew a Regional General Permit for maintenance dredging of not more than 20,000 cubic yards per year of sediment beneath public, private, and commercial dock structures within Lower Newport Bay. In 2000, the United States Army Corps of Engineers (in cooperation with the U.S. Fish and Wildlife Service, National Marine Fisheries, California Department of Fish and Game, U.S. Environmental Protection Agency and the U.S. Coast Guard) issued Regional General Permit (RGP) 54 for the project. The California Coastal Commission (CCC) issued California Development Permit 5-99-282, amended by Permit 5-99-282-A1, consistent with RGP 54 and the California Regional Water Quality Control Board – Santa Ana Region has issued a waiver of waste discharge requirements and a water quality certification for the project. These permits and their time extensions expired on January 24, 2006. The County and the City have applied for renewal of RGP 54 and the corollary permits with the above listed regulatory agencies.
4. This project was developed to provide a streamlining of the permit process for small public and private projects in Newport Bay, allowing for a total package of maintenance dredging in Newport Bay, while reducing the workload on state and federal regulatory agencies by combining many small projects under one umbrella permit.
5. Pursuant to the Commission's delegation of authority and the State CEQA Guidelines (Title 14, California Code of Regulations, section 15061), the staff has determined that this activity is exempt from the requirements of the CEQA as a categorically exempt project. The project is exempt under Class 4, Minor Alterations to Land; Title 2, California Code of Regulations, section 2905 (d)(4).

Authority: Public Resources Code section 21084 and Title 14, California Code of Regulations, section 15300 and Title 2, California Code of Regulations, section 2905 (d)(4).

Based upon the staff's consultation with the person's nominating such lands and through the CEQA review process, it is the staff's opinion that the project, as proposed, is consistent with its use classification.
