**OTHER PERTINENT INFORMATION:**

1. Lease No. PRC 7987.1 is a Master Lease that covers eight tideland areas for commercial and recreational navigation and existing industrial marine terminal facilities in San Diego Bay.
2. One of the leased areas in the City of Coronado (City) is authorized for a maintenance access road to serve the adjacent Coronado Municipal Golf Course. The San Diego Unified Port District (SDUPD) previously subleased this area to the City. The lease expired on January 31, 2009. PRC 7987.1 requires the SDUPD to obtain written consent from the Commission prior to subletting any of the leased premises.
3. The lease area was originally filled by the State Department of Transportation during the construction of the San Diego Coronado Bridge. After placement, the fill began to erode and required stabilization with rock rip rap. Since the completion of the stabilization, the fill has not created any effect on the environment and no adverse effects are expected in the future.
4. Pursuant to the Commission's delegation of authority and the State CEQA Guidelines (Title 14, California Code of Regulations, section 15061), the staff determined this activity is exempt from the requirements of CEQA as a categorically exempt project. The project is exempt under Class 1, Existing Facilities; Title 2, California Code of Regulations, section 2905 (a)(2).

Authority: Public Resources Code section 21084 and Title 14, California Code of Regulations, section 15300 and Title 2, California Code of Regulations, section 2905.

5. This activity involves lands identified as possessing significant environmental values pursuant to Public Resources Code sections 6370, et seq., but such activity will not affect those significant lands. Based upon the staff's consultation with the persons nominating such lands and through the CEQA review process, it is the staff's opinion that the project, as proposed, is consistent with its use classification.
