Steamboat Landing, LLC

**AREA, LAND TYPE, AND LOCATION:**

Sovereign land in the Sacramento River, adjacent to 12414 State Highway 160, near the town of Courtland, Sacramento County.

Amend the lease to extend the deadline for the reconstruction of the uncovered floating guest dock and walkway. All other terms and conditions of the lease shall remain in effect without amendment.

On June 19, 2014, the Commission authorized a 10-year General Lease – Recreational Use with Steamboat Landing, LLC, for the continued use and maintenance of an existing uncovered floating accommodation dock, gangway, two two-pile dolphins, two pilings, and the reconstruction of an uncovered floating guest dock with connecting walkway attached to two

existing two-pile dolphins and one existing piling. The deadline to reconstruct the uncovered floating guest dock with connecting walkway is October 31, 2015.

3. The Lessee has encountered unanticipated delays in the project and is now applying to amend the lease to extend the deadline for the reconstruction of the uncovered floating guest dock and walkway. The Lessee proposed new deadline is March 28, 2019, to coincide with the expiration date of the U.S. Army Corps of Engineers permit. Extending the deadline will not conflict with any approved work windows to protect sensitive species. As such, staff recommends the Commission authorize the extension through an amendment to the lease.
4. The staff recommends that the Commission find that this activity is exempt from the requirements of the California Environmental Quality Act (CEQA) as a categorically exempt project. The project is exempt under Class 1, Existing Facilities; California Code of Regulations, Title 2, section 2905, subdivision (a)(2).

Authority: Public Resources Code section 21084 and California Code of Regulations, Title 14, section 15300 and California Code of Regulations, Title 2, section 2905.

5. This activity involves lands identified as possessing significant environmental values pursuant to Public Resources Code section 6370 et seq., but such activity will not affect those significant lands. Based upon the staff's consultation with the persons nominating such lands and through the CEQA review process, it is the staff's opinion that the project, as proposed, is consistent with its use classification.
