**INFORMATIONAL PRESENTATION
UPDATING THE STATE LANDS COMMISSION
ON THE STATUS OF THE BECKER WELL
AT SUMMERLAND BEACH,
SANTA BARBARA COUNTY**

BACKGROUND:

At its August 19, 2015 meeting, the California State Lands Commission authorized staff to locate, excavate and expose the well casing known as the "Becker Well" in order to inspect and assess the condition of the well. The Becker Well was drilled in the early 1900's and is located in the surf zone of Summerland Beach in Santa Barbara County. The well was believed to be leaking. Staff will give a short presentation updating the successful conclusion of that effort.
